COMPACT 150

- Bale weight output up to 150kg
- Retaining claws to reduce spring back
- A mid-range baler with easy loading for larger size boxes
- Fully automated bale ejector make ejection clean and simple
- Ideal for medium to large amounts of material

- 01 Ideal for multiple waste streams
- 02 Auto shut off switch if door is opened during operation
- 03 Easy to operate Dual action dial for Compaction & Auto eject cycles
- 04 Auto Shut off at full pressure after bale compaction completed
- 05 Auto bale eject - two hands operation for maximum operator safety
- 06 Medium pallet size bale

UNIT DIMENSIONS

Height	2800mm
Width	1500mm
Depth	980mm
Weight	780kg
Transport Height	2250mm
Power Supply	Single phase 220-240v
Motor	2.2kw / 16 amp
Pressing Force	Up to 8 Tonnes
Noise Level	74dB

BALE DIMENSIONS

Height	1000mm
Width	950mm
Depth	800mm
Weight	150kg*
Cycle Time	40 sec

LOADING APERATURE DIMENSIONS

Width	650mm
Depth	950mm

MULTI CHAMBER 200

- Save handling time: chamber free while others in use
- Perfect for environments with height restrictions
- Automated bale eject for easy, safe bale unloading
- Retaining claws prevent spring back
- Ideal for medium to large volumes of material

- 01 Ideal for multiple waste streams
- 02 Auto shut off safety switch if door opened during operation
- 03 Multi-stage door release for added operator safety
- 04 Roller guided head for ease of movement between chambers with auto shut off when handle lifted
- 05 Auto bale eject - two hand operation for maximum operator safety
- 06 Medium pallet size bales

UNIT DIMENSIONS - TWIN CHAMBER

Height	2470mm
Width	3060mm
Depth	1100mm
Weight	1400kg
Transport Height	2471mm
Power Supply	Single phase 220-240v
Motor	2.2kw / 16 amp
Pressing Force	Up to 15 Tonnes
Noise Level	72dB

BALE DIMENSIONS

Height	800mm
Width	1100mm
Depth	800mm
Weight	200kg*
Cycle Time	34 sec

LOADING APERATURE DIMENSIONS

Width	1100mm
Depth	800mm

GLASS CRUSHER + BIN TIPPER SYSTEM

- Safe, simple, effective & cost saving waste solution
- Key lockable to ensure only authorized persons operate machinery
- Emergency stop function on both the crusher and bin lifter
- Fully enclosed crushing chamber to ensure maximum operator safety
- Ultra-sound sensor ensures crusher will not operate without glass collection bin in position
- Ultra-sound sensor ensures crusher will stop operating when glass collection bin is full
- Fully enclosed battery operated wheelie bin lifter unit
- Operator is positioned at back of bin lifter away from crusher when in operation.
- Complete with solid 3mm powdercoated steel glass collection bin & lid to suit

UNIT DIMENSIONS

Height	2125mm
Width	1460mm
Depth	1000mm
Weight	500kg
Power Supply	Single Phase/240volt
Motor	2.2kw / 13amp
Compaction Ratio	5:1
Noise Level	72dB
Suits	Wheelie bins

BIN LIFTER DIMENSIONS

Height	2985mm
Width	1265mm
Depth	905mm
Bin Weight	Max 250kg

COLLECTION BIN

Height	1000mm
Width	1150mm
Depth	1000mm
Max Weight Capacity	up to 500kg

- IMAGES ABOVE RIGHT:
- 01 Simple to operate controls with key lock and emergency stop button
 - 02 Will not operate without collection bin in place: will shut off once collection bin is full
 - 03 Battery operated bin lifter with key lock, emergency stop & 240volt battery charger
 - 04 Includes heavy duty 3mm powdercoated steel glass collection bin and lid
 - 05 Fully enclosed crushing chamber ensures maximum operator safety
 - 06 Secure dual pin lock mechanism ensures bin lifter remains in correct position

OTHER SOLUTIONS

VERTICAL BALERS

Able to handle a vast amount of material types including; cardboard, shrinkwrap, pet bottles, plastics, tyres etc. Simple to use. Bale sizes from 40kg to 650kg. 2 year warranty.

HORIZONTAL BALERS

Commercial size – Full stroke compaction. Robust construction. Can be adapted to shredding system for increased bale density. Optional automated conveyor system for increased efficiency.

STEEL DRUM CRUSHER

Totally enclosed chamber ensures maximum safety. Automatic shutdown function if door opened during operation. 30Lt oil collection tray with optional waste oil transfer pump kit & extra – smaller bale head compact inside a 200Lt steel drum.

POLYSTYRENE REDUCERS

Volume reduction of up to 150:1. Highly efficient machine. Full 5 year warranty. Ideal for Councils, Recycling facilities, Markets & Importer/wholesalers.

MINI GLASS CYCLER

Reduces bottles to safe to handle sand by-product: 20 litre bucket holds approx 160 small beer bottles or approx 60 wine/spirit bottles. 3-5 seconds cycle time per bottle..
