

# WRIGHTWAY2MT<sup>®</sup> INDUSTRIAL BIN TIPPER / BIN LIFTER

p: 02 6622 7111  
f: 02 6622 7131

[www.wrightway.com.au](http://www.wrightway.com.au)

No pinch points: All access areas have been made safe  
**ALL OPERATIONAL MOVING PARTS TRAVEL WITHIN COVERED and SHIELDED PANELS**

#### FULLY CAGED:

- 9mm diamond galvanised + powder coated finger proof guarding
- Solid foot guarding at base.

#### ADVANCED ELECTRONICS:

- Category 3 integrated interlock safety system (mechanism fully protected);
- Electronic sensors ensure doors CANNOT BE OPENED unless cradle is on the ground;
- Battery charger indicator LED;
- Control Box access by Authorised Technicians only;
- Electronic and Manual over-ride to open doors (Auth Techs only);
- Crane lifting points.

#### OPERATOR SAFETY:

- Operator, Control Panel and Safe Operating Procedure located at the front of machine, away from skip;
- Emergency Stop button;
- Handle bars at either side of machine for safe relocation by 2 operators;
- Doors open wide: safe access for loading and unloading of cradle;
- Braked castors at front, wind-down brake levers at rear to ensure stability during lift/empty;
- Cradle suits 660 and 1100 litre 4-wheeled bins + standard wheelie bins: no manual adjustment necessary;
- Detailed Operator Manual.

#### MACHINE WILL NOT OPERATE UNLESS:

- both doors are closed,
- the cradle is at ground level,
- & electronic sensors are aligned.

#### NO CHUTE:

Therefore no cross contamination between different sized bins

#### STANDARD MACHINE FEATURES:

- Lift and empty up to 450kg;
- Regulated lowering by gravity: pressure relief valve prevents over-loading;
- Dedicated fork-lift pockets: safe relocation;
- 12 month warranty (machine & battery);
- Spare parts and diagnostic assistance from manufacturer beyond Warranty.

**ON-SITE STAFF TRAINING + EXCELLENT AFTER SALES SERVICE**
